Lateral Sewer Line VIDEO INSPECTIONS AND CLEAN OUTS

Serving the California Central Coast

Our Services

We specialize in lateral sewer line video inspections and clean outs using the best inspection camera and tools to quickly yield the most accurate findings.

Our Clients

We partner with realtors and home inspectors to provide affordable, timely and accurate inspections, protecting buyers and sellers alike from costly unforeseen lateral pipe damage. We also work directly with homeowners who seek expert pipe inspection services to uncover problems within their lateral sewer line.

WHY INSPECTIONS ARE SO IMPORTANT?

Imagine your buyer closes on their dream home – and days later is faced with a **massive back-up** from an unchecked root intrusion or failed sewer lateral pipe? This type of repair can cost **thousands** and could've been avoided with one very affordable **inspection** before the close. Is this customer going to joyfully **refer** you to others when their new house has a gaping trench through the front yard to fix an avoidable problem?

Solution:

While sewer lateral inspections are not yet mandated in North County, they are a **small price to pay** for homeowners' **piece of mind!**

Friendly - Affordable - Accurate!
